

RIOTING IN THE CITY.

Serious Trouble on the South Side, Which Calls for Action.

THE AUTHORITIES ARE TOO MILD.

A Car Pulled from the Track and the Men Driven Off—A Mob of Hundreds Gathers—A Posse of Police Disperses the Rioters and Makes One Arrest—The Trouble Should be Nipped in the Bud.

There were more riotous proceedings yesterday evening, growing out of the feeling caused by the street car strike, and for the first time the disorder was within the city limits.

While nobody was hurt the disorder was disgraceful, and its recurrence in the future ought to be rendered impossible by prompt action of the authorities. The cars were run as usual all day, and on every trip the men encountered obstructions and obstacles which could have been, and ought to have been, prevented by the police.

About 5:30 obstructions were placed on Twenty-seventh street, and also between Twenty-seventh and Twenty-eighth. When the next car approached, a large crowd gathered there, and Officer Fahy dispersed it, while the men removed the stuff from the tracks and the car went on.

At Ford's crossing, within a half square of Thirty-third street, where the only rump of disorder in the city proper had previously occurred, another pile of stones, logs and bricks was found on the track. The operator and conductor got off the car to remove it, when they were assailed by the hundreds of people who had gathered, with sticks, stones and mud.

Another man was hurt, but both escaped serious injury only by running. One of them had not been heard of up to a late hour last night, while the other was taken in charge by Rose, the "soft drink" manufacturer, who agreed to bring him up town if he would promise never to go on a car again as a non-union man. He promptly gave the promise.

Intelligence of the trouble was telephoned to the police headquarters, and Chief of Police McNichol took a posse of policemen and went down in the patrol wagon. The crowd was dispersed. One young fellow, whose name was given as Cos Alvinger, when the police ordered all to leave, refused to do so, and he was arrested and locked up.

While the riot was not of a grave character, and nobody was hurt, it indicated a feeling and disposition which may easily lead to serious trouble. The placing of obstructions on the track is in itself a serious offense against the law, and the place to stop the lawbreaking is where it begins. Children old enough to commit offenses are old enough to be arrested. A little promptness of action will save a great deal of serious disturbance.

The police authorities argue that the present force is not adequate to police the whole line. Mayor Caldwell, in his proclamation, showed how to remedy that. If there are not enough policemen, he can provide more.

HELD TO APPEAR.

Justice Phillips Holds William Meyer Charged With Rioting.

Justice D. Z. Phillips last evening handed down his decision in the case of the estate vs. William Meyer, charged with complicity in the street car riot at Jacob and Forty-third streets week before last. He holds Meyer under bond to appear before the next circuit court to answer to the charge. Squire Phillips did not place the amount of the bond last night, but will do so this morning. The decision of the justice was received with surprise by Meyer's friends, as they thought he would not be held for court.

The interment will be in Greenwood cemetery, and a special Elm Grove motor will accommodate the large concourse of people who will follow the remains of this eminent citizen of Wheeling to his last earthly resting place.

HANGED HIMSELF.

John Long, of Toronto, Accused of an Awful Crime, Succeeded.

John Long, an employe in a sewer pipe works at Toronto, up the river, succeeded yesterday morning in the jail there by hanging.

He was incarcerated, charged with the awful crime of assault on his own daughter, who herself preferred the charge some days ago.

His hearing was set for yesterday morning. Yesterday morning when the jailers opened his cell he was found suspended from the side of the cell, having used a small chain for the purpose.

It is thought he feared the wrath of the people, which would have probably fallen upon him when the hearing took place.

"Electricity, Its Nature and Possibilities." Prof. John B. DeMotte is undoubtedly one of the most entertaining lecturers on the platform of to-day. He will lecture on "Electricity" on next Monday at the Young Men's Christian Association. Prof. DeMotte's lectures are so fascinating that nobody wants to miss either his talk or experiments. He is a rapid speaker, full of enthusiasm, and arouses his audience to a keen pitch of interest. His experiments are extremely novel and instructive. Seats will be reserved at the Y. M. C. Y. building at 9 o'clock Friday morning.

"Jack, the Huggler." The island "Jack, the Huggler," is still causing trouble. Night before last a crowd of young men chased him, but he escaped. One young lady who was seized by him fainted, and he left her lying on the sidewalk, where she was found some time after by friends. The feeling is high, but the offender seems to get away as easily as a ghost. If he is ever caught he will be severely dealt with.

THERE was a lively little fence war in the Fifth ward yesterday. Thomas McLain and John Zorn have had a dispute about a property line, and Zorn began the erection of a fence. McLain sent a carpenter to the place, and as fast as the fence was built he tore it down. RILEY-MARTIN FIGHT

Last Night at Seibert's Garden Was a One-Sided Affair.

RILEY HAD MUCH THE BEST OF IT.

Though the Referee Declared the Contest a Draw—Riley Went in for Blood in the Last Round, but was Called Down by the Referee—Fifteen Very Tame Though Scientific Rounds.

Pleasant Valley last evening, they were given as clever a glove fighting exhibition as has been given during the series.

Riley, who is well known in local sporting circles, had decidedly the best of it from the start, and possessing as he has the longest reach and the greatest amount of science, he was able to hit his antagonist wherever he saw fit. James Martin, of Washington, D. C., who made his professional debut last evening, is an exceedingly clever amateur of great promise, having won over twenty fights and only losing one.

After Referee Benjamin Cox called time at 11:40 p. m. the fighting was exceedingly lively from start to finish.

Mike Warlin seconded Riley, while Billy Falty looked after the interests of Martin. Martin won an excellent opinion by his cleverness in fighting

ED. RILEY.

and his gameness, standing up throughout the fifteen rounds and receiving his heavy punishment in a splendid manner.

The fighting was even more rapid than the Riley-Howley contest. Both of the contestants received severe punishment from the gloves.

Riley suffered from a bleeding nose and mouth, and Martin's shoulders and breast were raw, the skin hanging in shreds. He also had his ear split and mouth cut from the deceptive soft gloves.

More science and clever tactics in evading punishment were shown than in any preceding contest.

Mike Howley and Jack Bane were interested spectators of the bout, and everyone was highly gratified at the outcome of the exhibition and the pluck of Martin before his superior antagonist.

THE FIGHT BY ROUNDS.

Round 1. Riley led off only to be countered with quick returns; only light blows exchanged.

Round 2. Martin started on the aggressive with several good punches on Riley's jugular. Rapid sparring followed, both men showing skill.

Round 3. Riley led off with a good punch on Martin's ribs. Nothing else done during the round beyond light sparring.

Round 4. Several good blows were exchanged, only ending in clinches. These tactics were followed throughout the round.

Round 5. Martin led off with a heavy blow on Riley's jugular which brought hearty applause from the crowd. Riley closed the round with good returns by several good blows on Martin's ribs.

Round 6. This started off in a lively manner, each man punching the other in good style. Martin tried repeatedly to break Riley's guard, only to be met with good punches. First blood was given Riley, by a cut on Martin's neck.

Round 7. Martin, again led off in a vicious manner for Riley's jugular, the latter's dodging tactics coming in good play. Both became wary of each other and light sparring followed.

Round 8. Riley played with Martin during this round, only toy taps being exchanged.

Round 9. Riley led off with good punches on Martin's left cheek and ribs. Light sparring followed, Riley finally knocking Martin down in his corner.

Round 10. Heavy cross counters, both men getting in good punches. This round was lively, and brought forth hearty applause.

Round 11. Martin led off with a good punch on Riley's face. Riley returned with good punches on Martin's shoulders and ribs.

Round 12. Martin led up viciously only to be stopped with good punches in the neck. Martin struck viciously only to be caught in a clinch. Ended with several fairs.

Round 13. Riley started punching Martin all around the ring, ending in light sparring. Martin was fast becoming played out and showed signs of weakening.

Round 14. Nothing done in this round.

Round 15. Riley started in to finish Martin in short order, when the referee called him down by stating that this was no knock out prize fight, but a scientific glove contest for points. After some fighting time was called.

The referee decided owing to the superior advantage of Riley and the excellent showing made by Martin the affair was a draw.

And It Is Aggravating.

As a rule most people are intensely exasperated when, after wading through some exciting story in the newspaper which they have devoured with breathless interest, to find at the finish it is only a trap to advertise some wonderful soap or patent medicine. Of course it's disappointing, but just consider how cleverly it's done, and by the way, what a wonderful industry has been developed in this mode of advertising. Some of the great medicine firms pay

their advertising agent as high as ten thousand dollars a year, and a certain manufacturer of soap pays his advertiser twenty-five thousand. Just think of it, and while you are thinking just remember that "She Couldn't Marry Three" is the best show on the road.

LOTS OF KICKING.

The Breaking of the Democratic Caucus State makes Bad Feelings.

The air was not blue yesterday, but the only reason it was not was that the air never gets blue from profanity except in Hoyt's "Hole in the Ground."

Almost every Democrat met was kicking over the result of Tuesday night's Council meeting, when the Democratic caucus state was broken. Almost every Republican, early in the day, was pinching himself to see if he was dreaming. Later in the game they were all smiling. They are smiling still.

Said a prominent Democrat, who was also a member of the last City Council: "The trouble with the Democrats in Council is that they don't seem to have competent leaders. At last night's meeting they acted like a lot of chickens with their heads cut off. If I had been there I would have given the bolters and traitors a raking over they would not have soon forgotten. They will be remembered all right when the time for the next city election rolls around."

Another Democrat, an officeholder, took another view. He thought that marvelous production called "the slate" ought to have been broken.

A controversy having come up as to who voted for Schulbach at Tuesday night's Council meeting, the vote is here given: Bachman, Britt, Burke, Dinger, Filan, Frew, Gruse, Hamilton, Hupp, Israel, Kenney, Killeen, Knoke, Kreiter, Maxwell, Milligan, Morningstar, O'Maley, Robertson, Warneke, Waterhouse, Wheat, Zoetkier, Zulau, Zwickler, Caddle, Caldwell, Dobbins, Farrell, Hadlich, Haller, Horstman, Irwin, Kalbitzer, Menkemiller, Otto, Richards, Robinson. Total 39.

It will be seen that Mr. Schulbach did not receive the solid Democratic support, as was given the two Democrats, Smith and Hamilton, by the Republicans. It was stated in yesterday's INTELLIGENCER that Mr. Schulbach received 44 votes. This was a mistake.
